Get the results you deserve!

The AFM is perfect for golf course maintenance, large estates, city recreation areas and sports fields. Sleek enough to get under trees and agile enough to turn on a dime, the AFM Series is just right for all around maintenance. And the quality of cut is the best feature of all.

- Wings automatically lock for safe transport, release with pull rope or optional hydraulics
- Single B-section belt per deck with spring-loaded belt tensioner
- Rear discharge without chains. Chains collect moist grass and drop it in unsightly clumps
- Wing decks discharge clippings away from the rear deck
- Wing deck rear wheels are non-castering; helps hold mower on slopes
- Single beam hitch and generous deck overlap virtually eliminate skipping in "zero-turn" situations

Anti-scalp rollers on nose and trailing edges of decks protect the deck as well as the turf.

Low deck pivot allows for greater side to side flotation on the wing decks.

Over center release easily takes tension off the drive belts during extended off time, or for belt replacement.

Optional Hydraulic Wing Unlock allows user to unlock the wings from the tractor seat.
