

Altitude Trampoline Park

HOW WE ARE ADJUSTING THE OPERATIONS IN OUR PARKS

NEW C3 CLEANING PROTOCOLS

We have dedicated C3 team members assigned to consistently cleaning and disinfecting high touch surfaces throughout the day.

CLEANING STATIONS

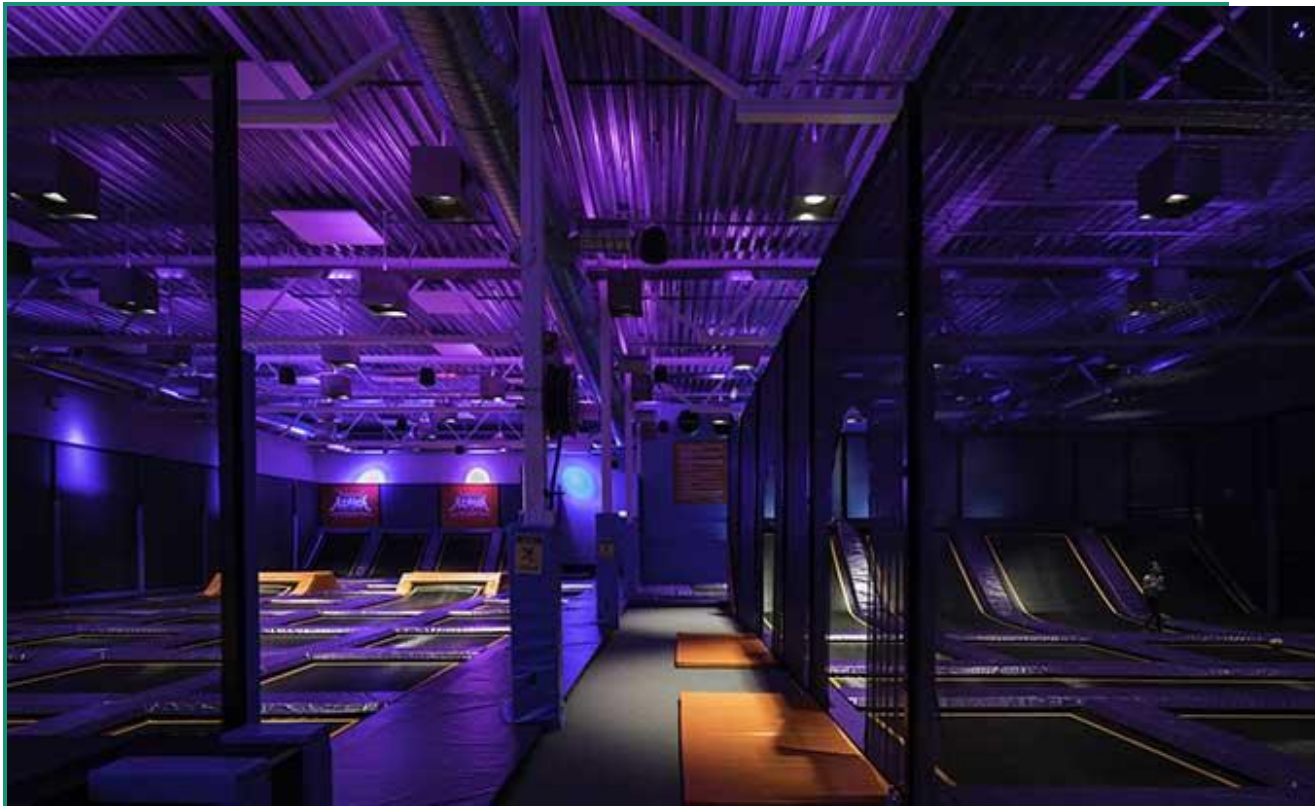

We have added disinfectant cleaning stations for guests use throughout the park.

HAND SANITIZER

We have increased the location and number of hand sanitizer stations available for use throughout the park.

SOCIAL DISTANCING CHANGES

We are increasing social distancing awareness through signage and new operating procedures. We have separated tables and removed chairs [where applicable] to allow more distance between our guests.

CROWD CONTROL

We have implemented crowd control measures that limit the capacity of guests in the park. NOTE: Please reserve your jump pass online to secure your timeslot.

TEAM MEMBER SAFETY

We are making face masks and gloves available to team members to protect them during their shift.

PARK CLEANLINESS AUDITS

Altitude Park has partnered with EcoSure in auditing our park cleanliness. EcoSure is a leader in health and safety evaluations and will be independently auditing our park.
