Galion Middle School 2016-2017

6th Grade Mohican Camping Trip

About Mohican Outdoor School

Over 200,000 students have learned about their environment, themselves, and each other in our resident school program. This program provides hands-on, experienced-centered classes in an outdoor setting. Programs are offered in resident experiences lasting 3, 4, or 5 days during the school year from September to May. Special sessions and events are offered with many age groups and adults, however, the 5th and 6th grade levels make up most of the student body that participate in our resident education program.

The Mohican Curriculum is designed to enhance the curriculum of the participating school. Our classes include many College and Career Ready standards and 21st Century Skills, and many of our classes are inquiry-based. Mohican School's thematic approach is to create a community where all aspects of the resident experience help students develop a sense of responsibility and stewardship toward the environment. Teachers from participating schools work together with Mohican staff in selecting classes. A curriculum guide is available upon request.

Dates: May 24-26

- ❖ **Students will remain at the camp over two nights**
- ❖ **50% of student camp fee is Due December 15**
- ❖ **\$154.00 camp fee (5 meals, two night program, brunch served last day)**
- ❖ **In order to be eligible for the trip, students must be in good academic standing and acquire no more than 19 demerits for the school year**
- ❖ **Administration will have the final say on all cases of academic and behavior standing**

Offered Classes:

- (1) Aquatic Studies** - Visit a creek, a pond, or wetlands to learn about these wonderful habitats!
- (2) Ecology** - A comprehensive view of the biotic and abiotic components of ecosystems.
- (3) Compass Challenge** - Learn to use a compass, your pace and your brains to compete against other teams on the compass course.
- (4) Survival** - Participants will learn what it takes to survive in the woods!
- (5) Ornithology** - Join us on a bird hike and learn more about migratory and resident birds.
- (6) Entomology** - Take the "UG!" out of bug and turn it into an "AH!" Collect insects to learn more about this fascinating subject.
- (7) Dendrology** - Learn to identify several tree species common to our area using a dichotomous key. Learn about pioneer and modern uses of trees in Ohio.
