Galion City Schools
Food Service
Dawn Hunter, *Food Service Supervisor*

November 4,2026

Dear Board Members and Dr. Jeffery Hartmann,

In accordance with the requirements of the Standards for Food and Beverages Act, this letter serves as the annual report of compliance with Ohio Revised Code Sections 3313.814, 3313.816, and 3313.817. These standards are also addressed through the District's Competitive Food Sales Policy (PO8550) and Wellness Policy (PO8510).

The Galion City School District Food Service Department routinely reviews the nutritional information of all food and beverage items made available to students using Health-e Pro Meal Planner software. This review process helps ensure that all items meet the applicable nutritional standards and regulations established by the United States Department of Agriculture (USDA) and the Ohio Department of Education and Workforce (ODEW).

I am pleased to report that the Galion City School District Food Service Department is in compliance with all applicable requirements for the 2026–2027 school year.

Please feel free to contact me with any questions or if additional information is needed.

Sincerely,

Dawn Hunter
Food Service Supervisor
Galion City School District
