District or School Information

Each district or school will provide copies of the report available to the public upon request.

State law in Ohio requires each school district board of education and each chartered nonpublic school board or governing authority to adopt and enforce nutrition standards governing the types of food and beverages available for sale on the premises of its schools. Additionally, the board or governing authority must specify the time and place each type of food or beverage is available for sale. The standards specified for beverages and food are minimum standards. Local districts and schools may adopt higher standards.

Each board or governing authority assigns staff to make sure that the district or school meets the nutrition standards in state law. The staff prepares an annual report regarding the district's or school's compliance with the standards. Completion of this survey fulfills the district or school's requirement to report to the Ohio Department of Education and Workforce its compliance with state law. The board or governing authority must schedule an annual presentation on the report at one of its regular meetings and include the date of the annual presentation in this survey.
